

EZEKIEL HEPHZIBAH KOLAWOLE

Web & App Developer | Graphic & Web Designer

Idi Ayin, Ogun State, Nigeria • 09060133921 / 08127486977 • princevickytech.official@gmail.com

PROFESSIONAL SUMMARY

Web/App developer and graphic designer with 5+ years of experience building responsive websites and digital brand assets. Founder of PrinceVicky Tech ("The Tech Solution"), delivering front-end development, UI/UX-driven design, and creative digital solutions for institutions, churches, and small businesses. Currently building production web projects using React, Tailwind CSS, and Supabase, alongside static HTML/CSS/JS builds. Combines a strong design sensibility with practical development skills to deliver polished, functional digital products.

TECHNICAL SKILLS

- Front-End Development: HTML, CSS, JavaScript, React, Tailwind CSS
- Backend / Platform: Supabase, Vercel (deployment & hosting)
- Graphic Design: CorelDRAW, photo mosaic techniques, brand & event design
- AI Image Generation: Midjourney, DALL-E 3, Ideogram (prompt engineering for design work)
- Other: Responsive/mobile-first design, form integrations (e.g. Formspree), basic site structure planning for institutions

PROFESSIONAL EXPERIENCE

Founder / Lead Developer & Designer

2021 – Present

Idi Ayin, Ogun State, Nigeria (Freelance / Self-employed)

- Design and develop responsive websites for institutions and organizations, including a secondary school website built with HTML, CSS, and JavaScript (multi-page site covering admissions, academics, staff, student portal, and a class register demo).
- Building a university website using a structured React + Tailwind CSS + Supabase + Vercel stack, currently at an advanced multi-page development stage.
- Provide graphic design services including event programs, portraits, brand identity, and flyer design for churches, schools, and private clients.
- Integrate third-party form services (e.g. Formspree) for contact and admissions workflows on client sites.
- Manage end-to-end client projects: requirements gathering, design, development, and delivery.
- Handle social media copywriting and brand content for the PrinceVicky Tech Facebook and Instagram pages.

SELECTED PROJECTS

Secondary School Website — The Apostolic Church Assembly Grammar School, Idi Ayin

- Built a full responsive site (Home, About, Academics, Admissions, Staff, Students, News, Gallery, Contact, Student Portal, Downloads) using HTML/CSS/JS.
- Developed a Class Register demo page with student tables, attendance marks, and class/term selectors.

University Website (Ashford University)

- Building a full institutional website using React, Tailwind CSS, Supabase, and Vercel; multiple public-facing pages completed to date.

EDUCATION

Bachelor of Theology — Theology and Integrated Science

Currently pursuing further education.
